## SAFE SANCTUARIES ACKNOWLEDGEMENT

Thank you so much for volunteering to serve with one of our many ministries involving children or youth. We are so glad to have you on our team. We would like to take a couple of moments to introduce a very important policy to you, called Safe Sanctuaries. This policy is aimed at reducing the risk of child abuse in our church. In Matthew 18:5 Jesus said, "Whoever welcomes a child... welcomes me." Verse 6 adds "if any of you put a stumbling block before one of these little ones, it would be better for you if a great millstone were fastened around your neck and you were drowned in the depth of the sea." In these verses, Jesus reminds us about the high value of children in God's kingdom. At Christ UMC, we want to do the very best we can to establish a safe environment for our children and youth.

We need you to do a couple of things before you begin to serve: First, read our safe sanctuaries policy. Hopefully, you have already received a copy of this policy from the Ministry Leader in your serving area. If not, please download a copy from our church website. Once you have read the document, please direct any questions or concerns to the staff person responsible for your area of ministry. Become familiar with how this policy fits in the area you volunteer. It is important that we all follow this policy to the best of our ability. Second, fill out the Participation Covenant at the end of the document and return it to the lead staff in your serving area. They may have additional forms that will also need to be completed, including a background check and application. If you are already serving in an area involving children and youth, we will still need you to read our Safe Sanctuaries policy and complete the participation covenant. Please check with the lead staff in your area to see if there are other forms needed. The most important thing we can all do is to be watchful. We need to all follow the policies established in Safe Sanctuaries. In order to protect our children and youth, please let your lead staff know if someone is violating the policy. Also, be watchful for children that you suspect may have been abused. You will find several links and other information on our website that will help you know what to look for when it comes to abuse. If you suspect abuse, please let the lead staff in your serving area know as soon as possible. They will need to ask you a few questions and fill out some paperwork. Most likely, this will involve a call to the Department of Human Resources. This is a very difficult step, but one that is critical if we seek the safety and welfare of our children. We may need your help with additional questions at a later time as well. Also, please covenant with the lead staff in your area to pray for this child and family. Please share any questions, concerns, or reservations with your Ministry Leader. They will be able to help you process and understand the steps we are taking. We wish we could say that this is not something we have ever had to do, but that is not true. We do encounter situations of abuse from time to time and it is important that we continue to respond appropriately. Thanks again for serving with our Children or Youth. I know that you will be blessed as you serve.
